Hello Sonya,

We should have the relocation packet information to you by early tomorrow morning. We can talk once you have it.

Thanks,
Mike

Description of EPA's temporary relocation process

Description of EPA's temporary relocation process

Michelle Hartly asked for a detailed description of the process EPA used to temporarily relocate residents whose properties are undergoing removal actions. She alleged that we didn't notify property owners before we started work. They had no lead time to prepare for temporary relocation. She also feels that people living on adjacent properties should be relocated. I've responded to that request that we do not temporarily relocate neighbors because we take steps (dust control, air monitoring, etc.) to ensure there is no off-site exposure during our removal actions.

I've incorporated comments from Mike and Victor. Please take a look and get me your suggestions by tomorrow, 9/8
